## The GREENER community is invited to this online training workshop!

Being biotechnology regarded as one of the most innovative fields in terms of developing future applications, participants working actively in collaborative projects must join forces to build a strong IP strategy.

This webinar will provide an overview of the key aspects in the field of intellectual property management (IP) for EU-funded collaborative projects, focusing on the biotechnology industry. Moreover, it will help you kick-start good IP practices in your project, so freedom to operate your joint and individual results is guaranteed.

Therefore, GREENER is inviting its network, the project partners' professional networks and the bioremediation industry stakeholders to join us and get more insights on the Intellectual property protection in the Biotechnology Industry. Furthermore, EU-funded and further collaborative projects focused on the scaling up of bio-based solutions within the European industry are also welcomed to join.

### IP TRAINING WORKSHOP Agenda

<i>Scheduled Time</i>	<i>Learning Activities</i>
<b>15:00 - 15:10</b>	<b><i>Relevant IP-related issues and strategies in collaborative projects</i></b>
<b>15:10 - 15:40</b>	<b><i>Overview on different instruments for IP protection schemes</i></b>
<b>15:40 - 16:00</b>	<b><i>Ownership of background and results</i></b>
<b>16:00 - 16:15</b>	<b><i>Best practices supported by project participants</i></b>
<b>16:15 - 16:30</b>	<b>Q&amp;A</b>
